

Hive

connect and learn

Many organizations struggle to reap the benefits that an effective mentoring program can bring as part of their talent management and high potential pipeline strategies.

Resourcing such mentoring ambitions requires both time and skill. Time to connect protégés with the right mentors, at scale, and mentors who are as skilled in the process of mentoring rising talent as they are enthusiastic about doing it.

Introducing Hive

Impact has collaborated with a number of global clients to create Hive – an online, real-time and scalable informal learning solution that will help you deliver effective mentoring programs at scale.

Hive has been designed to do two things brilliantly.

Hive transforms your ability to match mentors with the right protégés; combining a proprietary algorithm and psychometric profiling to ensure the right fit between mentor and protégé.

Hive provides timely expert advice, tips and practice guides to each mentor and protégé as they progress in building their learning relationship.
